PROPOSAL

PROJECT TITLE:
"COFFEE SHOP MANAGEMENT SYSTEM"

GROUP MEMBERS LIST:

Team Lead: Ayesha
Group Members:
Syed Umer Ali
Hafsa Shahid
Iqra Zaman

PROJECT SCOPE:

This system will help to manage and run the café shop systematically. In this management system, we will provide a website that can be used by cafe's employee to take order. So that owner of shop cafe evaluates the whole system. This will ultimately lead to hire less waiters and create and opportunity to appoint more chefs and better shop to serve coffee faster. Employee can take payment which will managed into the software.

PROJECT ABSTRACT:

The main purpose preparing these documents is to give a general insight into the analysis and requirements of the existing system or situation and for determining the operating characteristics of the system. This website is designed such way that it will generate the bill automatically every order in time. So there not much

worries. This software also equipped with to enter the details of each employee in the organization, it helps them to track each employee.

PROJECT FUNCTIONALITIES:

- Login system
- Ordering system
- Displays total bill
- Add and delete coffee items
- Item counter
- Instant order preview

Coffee Shop Management software is the need and necessity of every organization and its human resource systems. With Coffee Shop Management System. The employee information and their details are efficiently managed to satisfy the needs of both the employees and the administrator.
